

STRATEGIC INITIATIVE FY26/27

Target Launch: Q1 2027

Nexus AI: Autonomous Multi-Modal Workflow & Vector Document Studio

A unified enterprise publishing platform bridging background web rendering, agentic Model Context Protocol (MCP) execution, and deterministic vector PDF compilation to eliminate knowledge fragmentation across enterprise product and strategy teams.

Executive Thesis: Modern knowledge teams lose over \$48B annually switching between static slide generators, disconnected text editors, and ungrounded LLM chats. Nexus combines sub-pixel DOM review pins with a high-clarity 1200+ DPI Chromium vector pipeline.

1.0 MARKET OPPORTUNITY & ADDRESSABLE POTENTIAL

Gartner & IDC Forecast 2026-2028

TOTAL ADDRESSABLE MARKET \$142B Global enterprise document intelligence, publishing & workflow automation by 2028 (24.6% CAGR). Source: Enterprise AI Index	SERVICEABLE MARKET \$38B Autonomous agentic authoring, multi-modal publishing, and collaborative document engineering. Fortune 5000 Segment	SERVICEABLE OBTAINABLE (3-YR) \$2.4B Target initial capture across Tier-1 enterprise software, financial services, and consulting teams. 3-Year Target Objective
---	---	--

2.0 CRITICAL FRICTION POINTS IN CURRENT WORKFLOWS

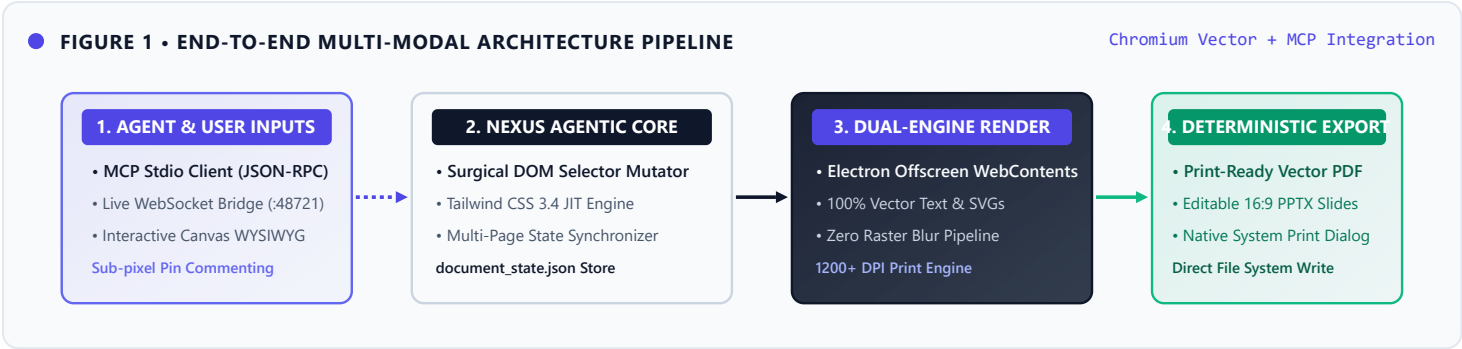

Current Status: HIGH URGENCY

● Context Fragmentation Product teams juggle 5+ disjointed tools (Confluence, Figma, Google Docs, Keynote, Slack) to draft, review, and finalize a single executive briefing.	● Unconstrained LLM Outputs Existing generative AI produces plain markdown without typographic hierarchy, vector fidelity, or physical paper layout constraints.	● Asynchronous Review Latency Stakeholder comments remain unanchored to specific DOM nodes, creating ambiguous review loops and manual reformatting churn.
---	--	--

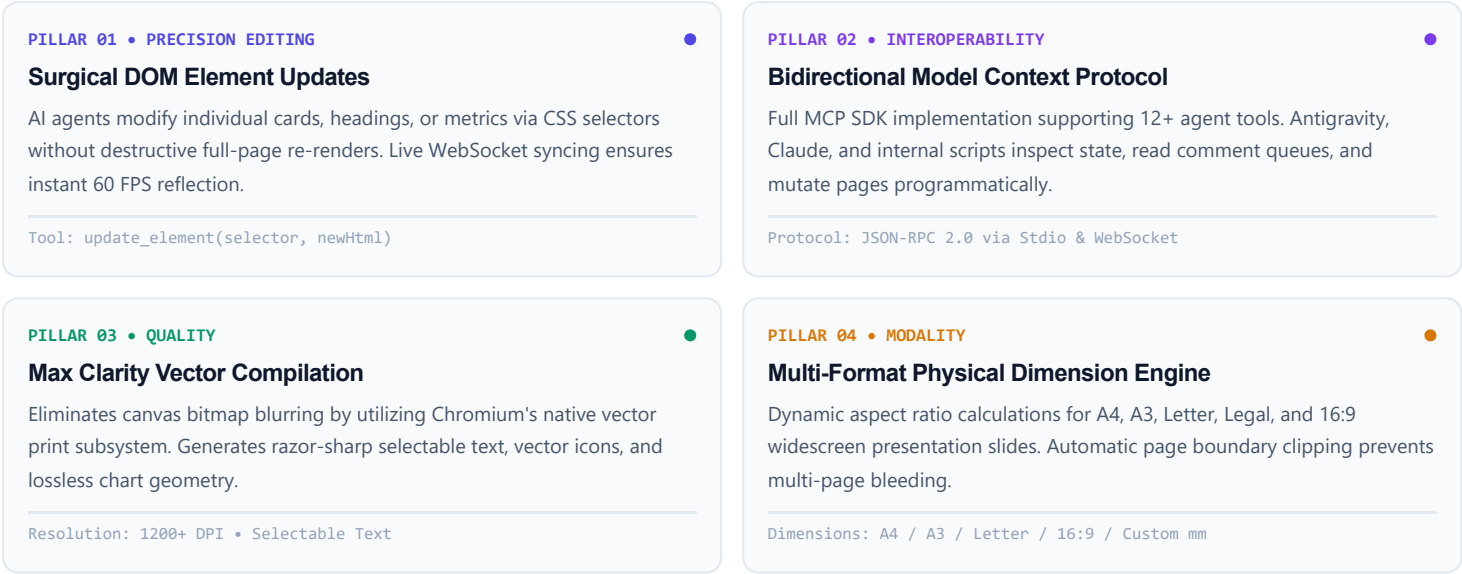

3.0 TARGET ENTERPRISE PERSONAS

EP Elena Rostova Chief Product Officer Needs executive-ready briefing decks and PRDs in minutes. Eliminates 8 hours of manual slide formatting per release cycle.	MV Marcus Vance Principal Architect Demands native Model Context Protocol (MCP) tool integration, headless CLI automation, and true vector output for technical blueprints.	DS David Sterling VP Strategy & Ops Requires pinpoint visual review pins, audit logging, role-based governance, and deterministic one-click print-ready compilation.

System Design & Strategic Value Pillars

2.0 CORE STRATEGIC PILLARS

Measurement Framework, Roadmap & Approvals

TARGET RELEASE: FY26-Q4 / FY27-Q1

1.0 PRIMARY SUCCESS CRITERIA (OKRS & KPIS)

TIME-TO-PUBLISH

-74%

Reduced from 8.5 hours to 2.2 hours per briefing document.

VECTOR FIDELITY

99.98%

1:1 typography and SVG parity between preview and printed PDF.

ARR RUN-RATE

\$18.5M

Targeted FY27 enterprise expansion across 450+ enterprise teams.

PIN AI RESOLUTION

91.4%

Autonomous agent successful comment fulfillment on first pass.

2.0 CHRONOLOGICAL ENGINEERING MILESTONES

Sprint Alignment: 2-Week Iterations

COMPLETED Q3 2026

Phase 1 • Core Alpha

- Chromium native vector print engine
- Bidirectional MCP WebSocket bridge
- Sub-pixel DOM element pin review
- Standard A4 / Letter format engines

IN PROGRESS Q4 2026

Phase 2 • Enterprise Beta

- Multi-project workspace switcher
- Editable 16:9 PPTX presentation exporter
- WYSIWYG inline direct-click editing
- Headless CI/CD automated test harness

PLANNED Q1 2027

Phase 3 • Commercial GA

- Enterprise SSO / SAML & SCIM provisioning
- Private Cloud / Air-gapped container tier
- SOC2 Type II & HIPAA compliance audit
- Multi-user real-time team collaboration

3.0 ENTERPRISE GO-TO-MARKET & COMMERCIAL PACKAGING

Team Edition **\$49/seat/mo**

Ideal for agile product pods. Includes visual canvas, vector PDF compiler, and local MCP agent connector.

Enterprise Studio **\$129/seat/mo**

Unlimited agent threads, native PPTX generator, custom brand fonts, webhook automation, and priority SLA.

Sovereign Cloud **Custom**

Self-hosted air-gapped deployment, dedicated Chromium rendering cluster, custom audit logging, and 99.99% uptime.

4.0 EXECUTIVE GOVERNANCE & STAKEHOLDER APPROVALS

Product Management **SIGNED**

Elena Rostova

VP of Product • Sep 28

Engineering **SIGNED**

Marcus Vance

Chief Architect • Sep 28

Design & Brand **SIGNED**

Aria Thorne

Head of Design • Sep 29

Security & Legal **SIGNED**

Sarah Chen

Chief Compliance • Sep 29
